General Manager of A.S. Wellas Executive Search and Recruitment company Svetlana Osadchaya has been my recruitment partner since 2006. We successfully closed several very senior and important positions together.

I was very happy with the full time team members she has recruited on the behalf of my former company GroupM. We especially appreciated her openness about particular skills or other requirements we were seeking for certain positions.

Now being an HR Director for Russia and CIS at Boeing I keep turning to Svetlana for recruitment advice as I consider her a professional with the focus on getting tangible results. We are looking forward to continue working relationships between our companies.

To summarize, I recommend A.S.Wellas as a potential member of AmCham community and look forward to continue working relationships with this company.
